August 10, 2012

Dear Mr. Manning:

The Moab Irrigation Company board members accept the terms and conditions set forth by your letter of July 25, 2012. We are enclosing a check in the amount of Two Thousand Four Hundred dollars (\$2,400) to satisfy the Companies portion of the metering installation.

If you need any further approval from us, please call or write. We appreciate the help in getting these very important metering sites for South Mesa and Wilson Mesa operational.

Sincerely,

George Carter
President

George Carter
President
Moab Irrigation Company
P.O. Box 385
Moab, UT 84532

Dear George Carter:

The Division of Water Rights, in cooperation with the Moab Irrigation Company, plans to install a real-time monitoring network on the South Mesa and Wilson Mesa Diversions. The Utah Division of Water Rights will purchase and install the necessary equipment, collect the data, and host the information on the division's website and database. The cost estimate for the equipment is \$7,345. An itemized cost list of the equipment is attached. It is anticipated that Moab Irrigation Company will reimburse the division \$2,400 of the project equipment cost. Moab Irrigation Company is to remit payment in full to the Division of Water Rights due by August 31, 2012.

All future equipment expenses will be the responsibility of the Moab Irrigation Company. The Division of Water Rights will provide labor to assist with maintenance and will provide technical support to maintain the monitoring network. The Division of Water Rights is committed to providing accurate, reliable and timely water records throughout the state and believes that this project will be a great asset to the water users on Mill Creek.

Please respond to this summary with a letter indicating your commitment to this arrangement. If you have any questions or comments please contact Aaron Hunt at 435-752-8755 or Sue Odekirk at 801-538-7431.

Sincerely,

Jared Manning
Assistant State Engineer
